

Sage 50 Mobile

Access your financial information on the move

Sage 50 Mobile allows users to access Sage 50 accounts information via their BlackBerry® or iPhone while on the move. Silver Medal Winner for “Best in Mobile Internet Innovation” at the Digital Media Awards 2010, Sage 50 Mobile now allows you to create real time sales orders, invoices and quotations.

Sage 50 Mobile helps mobilise your workforce by giving them anytime, anywhere access to Sage 50 information, improving productivity. Using Sage 50 Mobile on your BlackBerry® or iPhone is more discreet and less obtrusive than a laptop. As such, it is ideal for field based people, customer relationship managers, financial controllers or financial directors.

Key features include:

- Access to real-time Customer and Supplier details
- Access to real-time Quotations, Sales Orders and Invoices
- Create real-time Sales Orders, Sales Invoices and Quotations
- Easy navigation
- Compatible with BlackBerry® and iPhone devices
